

India Heritage Walk Festival

## India Heritage Walk Festival 2018

India Heritage Walk Festival is a month long festival led by Sahapedia & YES Culture. With its varied line up it aims to focus on the diverse aspects that make up the cultural fabric of our country, such as, food, heritage, nature, and art. There will be walks, talks & films covering a whole spread of interests and from just about every geographical perspective.

Ranging from museums, and historically significant monuments and markets, to explorations of interesting natural landscapes and areas known for its rich cuisine; the program will be curated thematically; focusing on architectural heritage or women's and gender-related issues, for instance, and with specific user groups in mind, such as students, travellers, corporate teams, and so on.

The aim is to make this festival multi-faceted and inclusive. Different user groups will be targeted by curating tailor-made engagement programmes. This would help in highlighting these issues to institutions, and indicating the need to alter heritage spaces into more inclusive spaces.
